WenLambo's White Paper

Original date of publication 07/05/2021

Date of update 13/05/2021

Reason for update is that we have noticed that the bot sales are affecting our liquidity and in turn allowing the value to drop. The only way we can counter this is to increase the TAX to 10% like many other coins are

Date of update 19/05/2021

Reason for update: removed quote about Bitcoin 2.0 as not relevant to the point.

Date of update 26/05/2021

Reason for update: Changed fees section to sit in line with exchange requirements.

This document is not a solicitation of investment and does not in any way refer to an offer of securities in any jurisdiction.

This document describes the sale of WenLambo Tokens.

Legal

The following document presents information given for discussion purposes; this White Paper does not represent investment advice of any kind. For any advice, please consult a qualified independent financial advisor. Furthermore, this white paper does not constitute an offer to sell other shares or securities, nor does it form a solicitation to buy shares or securities.

The information provided within this document is not intended to influence any investment decision. WenLambo encourages all readers to seek appropriate and professional advice to inform themselves of the potential risk and tax implications that could arise from investing.

For each amendment we make to this White Paper, we will provide justification for the change. Updated versions of the White Paper (as indicated by consecutive edition numbers) may contain information which may override, clarify or contradict previous editions, in which case the latest version should be considered the most accurate and up to date. Because of this, versions which are found outside of the official WenLambo website may contain out-of-date or inaccurate information. The most up-to-date version of the white paper can be located online at WenLambo.finance

Introduction

WenLambo is an evolving project, this project surrounds an ever-changing market environment, so amendments will be made periodically to best reflect current events. We would advise you to review this document whenever we post updates.

Wenlambo is an idea devised by individuals with elite knowledge in the Finance Industry with years of experience investing and planning strategic projects with huge projections. Just like a lot of people, we all dream of owning a Lamborghini, and one day, here at WenLambo we believe we can make this possible. Within a few months we have already made the impossible possible, we officially launched April 26th 2021, completing our Pre-sale order which sold under 2 hours with a hard market cap of 80 BNB.

What is WenLambo?

Wenlambo is a deflationary token which uses smart contracts on the Binance Smart Chain (BEP-20), peer-to-peer technology is used for facilitating instant payment in digital value (crypto), DeFi uses a layered architecture and highly reliable building blocks.

Our expectation is that members will hold their tokens during the time allowing price to increase, for this reason we have implemented a transaction fee of 10%. Devised within this transaction fee, 4% will be distributed evenly between all holders, another 4% will go towards our quarterly charity donations. The remainder of tokens from the tax will be burnt, thus reducing the global supply.

The team believes firmly in rewarding our participants, we want to make sure all holders, regardless of how long they have been with us, can take part in rewards we offer, as well as all having an equal chance of standing out within our ever-growing community. We plan to hold weekly giveaways to enable as many holders as possible to win huge rewards, from tokens to days out including track days where you will have the opportunity to drive a Lamborghini.

As goes for all projects of this nature, we are nothing without our ever-growing and passionate community, and so we will strive to ensure that all voices are heard equally regardless of your token count.

LP locked for 183 days.:

Fees

\$WENLAMBO fees are set to 10% for each transaction, selling or buying, this is used to aid our charity support.

Those fees are divided into three which are used for different reasons: 4% will be collected in a wallet for quarterly donations, 4% will be divided by all stakeholders and 2% will be burned.

Marketing Strategies

NFT (Non-fungible-token) is a unit of data stored on a digital ledger, called a blockchain, that certifies a digital asset to be unique and therefore not interchangeable. NFTs can be used to represent items such as photos, videos, audio, and other types of digital files. Access to any copy of the original file, however, is not restricted to the buyer of the NFT. While copies of these digital items are available for anyone to obtain, NFTs are tracked on blockchains to provide the owner with a proof of ownership that is separate from copyright.

The NFT market has seen rapid growth recently with its value tripling to \$250 million in 2020. In the first three months of 2021 alone, more than \$200 million was spent on NFTs. The economic momentum NFTs have in the Crypto Market has exploded because of a trend towards digital collectibles. NFTs are also accelerating a larger trend of digital economic innovation as the public is increasingly favouring a crypto economy.

This is a huge market for artist which allows to sell a personalized and unique token for their fan and is protected by digital copyright.

We plan to create our own line of NFTs, celebrating modern culture whilst also addressing pertinent sociological issues.

Further down the line we aim to create our own WenLambo marketplace in which artists can sell their own NFTs to enthusiasts, who in turn will also be able to trade and sell pieces of their collection, all using escrow and the WenLambo currency.

Charity Support

On a quarterly basis we will be donating 33% of the fees collected to charitable causes. In pursuit of absolute transparency, the decision on which charities we donate to will be determined by public vote in our online communities. This will apply to all donations and charity work performed by \$WenLambo, barring our first donation, which will be focussed on child abuse and sexual health.

We welcome friendly discussion in all of our communities, especially discussion regarding how we can best benefit the world around us.
